Formulary Delisting of WinRho 5000 IU

Customer Letter # 2024-24

2024-05-31

Dear Colleagues:

Please be advised that WinRho 5000IU vials are being delisted from Canadian Blood Services' Plasma Protein and Related Products (PPRP) formulary. Currently, Canadian Blood Services has less than 10 vials in inventory with an expiry date of 2025-08-31.

No future deliveries of this product size (5000IU) are planned, and it will be unavailable to order once the current inventory is issued or expires.

Canadian Blood Services will continue to carry WinRho in the 600IU and 1500IU vial sizes.

Please share a copy of this customer letter with healthcare professionals at your hospital who might be interested in this information.

This customer letter can also be viewed at www.blood.ca in the "Hospital Services" section. If you have questions about this letter, or if you require it in an accessible format, please contact your local hospital liaison specialist.

Sincerely,

Sylvain Grenier,
Director, Plasma Protein and Related Products Formulary Program
